Procurement of Russian "Kerosene Radio" Sets

1. Information has been received that the Russian Kerosene Radio is now available on the open market. Specific interest is in the thermocouple power unit supplied as a component of the set for which 12% efficiency is claimed.

25X1

2. It is understood that the "Kerosene Radio" has been offered for sale.

25X1

Additional procurement information may be obtained from

25X1

3. It is requested that two "Kerosene Radio" sets be procured for evaluation by the laboratory. Air pouch is desired.
